## Food Vendor Application

**Please read the following carefully so that there is no confusion during set up. You must be familiar with all of this information before you arrive on site.**

### **Health Permits**

All food vendors need to obtain a health insurance covering their business/entity, (and Festival of Arts, and City of Laguna Beach). We suggest you have an Orange County health permit through the Himalayan Festival coordinator. You must fill in the Orange County health permit application form and return to us with payment made to Dhondup Tsering (Himalayan Festival Organizing Committee) at email [info@himalayanfestival.net](mailto:info@himalayanfestival.net). We will then submit the application to the Orange County for you and pay applicable fees. We or the city will send the permit to you directly after processing the application.

### **Selection Process**

Our goal is to have a variety of foods with little crossover. We require all vendors to submit their menu and will share this info if necessary to avoid competition between vendors. The sooner we receive your application, the more likely you will be accepted and have control over space allocation and menu options. We may ask you to adjust your menu in the interest of you and other vendors.

### **Beverages**

You may sell beverages in plastic bottles, cans or compostable or paper cups.

### **Sellers Permit/Business License**

All vendors must post Sellers permit and/or business license during business hours.

### **Cleaning Deposit**

A \$200.00 fully refundable cleaning deposit is required for all Commercial and Hot food vendors. If your space is left clean and all garbage is properly disposed of then your check will be returned to you immediately, otherwise it will be used to have your space professionally cleaned and pay for any reprimands by the City of Laguna Beach.

### **Commercial/hot food vendors**

All food should be made and pre-cooked at your business/home. Event food stall allows vendor to head up and sell (no prep must be done inside the approved booth; All storage must be out of sight during business hours. Booth rentals are available, see application.

### **What we provide**

We will provide a space for your food booth and additional storage and all vendors may have access to water for cooking and a sink for washing dishes etc. We do not provide cooking equipment, signage or power for each booth location. If power is required, you will need to bring your own generator.

### **Signage**

All commercial and hot food vendors are required to provide their own professional looking signage and menu board.

### **Refunds**

There are no refunds after you have been accepted as all funds are directed towards the production and marketing of the event.

Please email any questions regarding Food policies and equipment to us at [info@himalayanfestival.net](mailto:info@himalayanfestival.net) / [himfest@gmail.com](mailto:himfest@gmail.com)
